Node.js + Express

Real-Time
Socket.IO

Database
MongoDB Atlas

AI / TTS
Gemini API

Mapping
Google Maps SDK

Safety & Accessibility

- Emergency SOS
- Live Tracking
- Simple UI
- Voice Integration

Results & Future Work

Safer Commutes
SOS, live tracking, and admin safety tools reduce daily vulnerability.

Zero Literacy Barrier
Urdu voice interface removes reading and typing requirements.

Economic Mobility
Reliable transport expands employment reach for domestic workers.

Future: AI Routing
ML-powered dynamic routing and multi-city scale-out.
